ArmaTrac®

Armed Well, Even For The Toughest Job.

ARMATRAC Disc Harrow

- With hydraulic pistons in the disc harrow models,the depth of the work can also be adjusted easily while driving. It has a strong connection system that connects to the three point suspension arms.
- It has a strong body structure and is resistant to harsh soil conditions.

Thanks to the discs that can be modified for soil construction, the fuel consumption of the tractor is reduced and the running performance is improved.
